

Bon Accord Engineering

Bon Accord Engineering are the Western EU stockist of the **ANCO® PN-LOC®** Nut, manufactured only in Texas.

The ANCO® PN-LOC® is a proprietary, all metal, self-locking nut that features a stainless-steel ratchet pin. Coupled with a unique controlled lock indentation, this non-breakable ratchet pin limits damage to bolt threads, and the removal of galvanizing while ensuring consistent locking torque.

All metal self-locking nut with a stainless-steel ratchet pin.

Available in American Standard and Metric; Hex finished and heavy nuts.

- Patented, Non-breakable Stainless-Steel Pin
- Limits the removal of galvanizing and damage to bolt threads.
- Unique controlled lock indentation ensures consistent locking torque
- Available in METRIC Sizes
